TRANSPORT

After arrival, check the damper for transport damage and shortcomings. In case of any damage or shortcomings, immediately contact your supplier.

STORAGE

If the damper is not installed immediately:

- Remove any wrapping.
- Protect damper from dust and contamination.
- Do not expose the product to the effects of weather, store in a dry place.

Please properly dispose of packaging material!

MAINTENANCE AND OPERATION

Klimaoprema dampers are designed as such do not require cleaning and regular maintenance.

- After each intervention, provide a systematic cleaning of dust
- Cleaning instruction: clean with a sponge, with water or a mild detergent

It is not permitted to alter the product in any way nor perform any changes to their structure without the manufacturer's consent. The functional test must be carried out in compliance with the basic maintenance principles of the European norm.

COMMISSIONING

- Carefully unpack - be careful of sharp edges and do not use excessive force for unpacking.
- Before commissioning - check the product functions.
